DYNA-Taurine™
A Taurine Dietary Supplement

FOR DOGS
One complete stroke of the metered pump per 40 pounds of body weight twice daily on the food. (Each stroke is equal to 4 ml or 300 mg of Taurine.)

FOR CATS
One half stroke of the metered pump twice daily on the food. (Each half stroke is equal to 2 ml or 150 mg of Taurine.)

Ingredients: Water, Taurine, Soy Lecithin, Citric Acid, Natural Flavors, Natural Sweeteners, Natural Colors, Natural Preservatives, Natural Buffers, pH Buffer, with Citric Acid to 5.5-6.5.

DYNA-Taurine is a palatable, easy-to-swallow taurine dietary supplement in a liquid lecithin base. Its viscosity makes it suitable to be given with the food or placed directly in the mouth of the pet. Special formulation masks the sharp amino acid taste. The product is stable... does not need refrigeration. To be fed to dogs and cats only. For oral use only. For veterinary use only. Not for human use.

Taurine: Considered to be a metabolic factor involved in the conjugation and excretion of bile acids. It is also a free amino acid present in most cells of the body including the adrenal glands, blood, cardiac muscle and brain. It is a major constituent of the free amino acid pool in mammalian neural tissue, where it functions as a neurotransmitter or neuromodulator in the central nervous system.
